

Board Games Available in the House

The house has a wide variety of board games for all ages, including chess, checkers, scrabble, puzzles, cards, and more. Here is a list of some of them.

Giant Checkers

Popular strategy game, checkers originated in Europe sometime in the 12th century (see Cloister Games below). The objective of the game is to take all of your opponent's playing disks off the board by "jumping" over them.

Cloister Games

This collection represents medieval games commonly found carved on monastery floors and includes four different boards to play the games of

- Merels
- Fox & Geese
- Alquerque and
- Fierges.

Each game has different rules and can be played by two players 9 years old and over.

Check the rules, try all four of them and you will see how the modern game of draughts (checkers) came about.
